

How to Show Interstitial Ad every X Seconds

I will show you How to Show Interstitial Ad every X Seconds. That is you can show an Interstitial ad for every fixed number of seconds for example 10, 20, 30 or more...

So Let's Start...

Add Below Library to your Gradle

```
[crayon-5c6e09248c32a991805666/]
```

Add Below code to your MainActivity.java file

```
[crayon-5c6e09248c333351220918/]
```

Now run the app and check...

Watch the video below or follow the presented steps.
